

SEPTA Transit Network COVID-19 Modified Service Map

Effective September 14, 2020

COVID-19 SERVICE ALERT

This is SEPTA's modified Transit Network Frequency Map showing service in operation as of September 14, 2020. To protect the health of our customers and employees, resources are limited, and we are working overtime to make sure our system is safe and healthy.

SEPTA's Service schedule is meant to support essential workers, and those making essential trips, through this unprecedented time. If you are not an essential worker, or you're not trying to access an essential place like a grocery store, health center, or pharmacy, please stay home! We are all in this together, and we hope to see you back on a bus, trolley, or train soon.

This map shows stations and routes that are open and operating in their usual bold colors, while those that are suspended or closed are faded into the background. Bus routes are shown in different colors to show how often they come during the day. Please check a schedule before you use a SEPTA service during this time, at www.septa.org/covid-19.

Center City/University City

Sub/e and Trolleys

Service based on a Saturday schedule.

- Market-Frankford Line** (Blue)
