

- dd. Unit Tracking.
 - ee. Home User Roaming.
 - ff. Roaming Management.
11. The Contractor shall identify any features which have been tested and verified as not functioning through the ISSI8000 (i.e. Radio Monitor, Inhibit, Call Alert etc.) as part of their response to this proposal.
 12. **Console Sub System Interface (CSSI)** - The Astro 25 Core Network Architecture shall support a CSSI interface in accordance with the P25 standards developed and approved to date. The Radio System shall be equipped with a CSSI Server, Router and Firewall. The CSSI shall support at a minimum the functions as described in Section 13700 1.3 G #10 ISSI above.
 13. Digital Voice Logging Recorder
 - a. The existing Logging Recorder System is comprised of several KOVA Audiolog Digital Logging Recorders integrated into one system;
 - Radio /Telephone Logging recorders
 - Bus depot Logging recorders
 - b. The existing Radio Logging Recorders are integrated into the SMARTNET/VHF system via 2-Wire audio tap for each talkgroup/conventional channel on the system. Four (4) recorders are located on the 11th Floor at 1234 Market St. and a fifth is located on the 19th floor.
 - c. The Contractor shall furnish one (1) new Verint Media Recorder v15 on the 11th floor for 344 channels of analog recording to replace the existing v5 Bus, Police and Telephone Information Center loggers and the v4 CCT logger.
 - d. On the 19th floor, the Contractor shall furnish and install one new Verint Media Recorder, v15 for 96 channels of analog recording to replace the existing v4 Rail Logger. The existing Analog Tap cards will be reutilized in this system upgrade. The Contractor shall also furnish and install a new Verint Media Recorder v15 datacenter server on the 11th floor.
 - e. At the FTC/ACC location, the Contractor shall upgrade the FTC recorders to Verint Media Recorder v15 from v5. The Contractor shall include both the hardware and software to be capable of logging all audio traffic by talkgroup/channel and the capability to review recordings by talkgroup/channel in the same manner as exists today. The existing Analog Tap cards will be reutilized in this system upgrade.
 - f. In addition to the recorders at the Market St and FTC/ACC locations, SEPTA operates ~~ten-nine~~ (409) local District logging recorders for telephone
