

SEALED BID/REQUEST FOR PROPOSAL NO. 20-00554-ATMM
Computer Aided Radio Dispatch System

DISADVANTAGED BUSINESS ENTERPRISE (DBE)
RESOURCE GUIDE

The purpose of this Resource Guide is to provide prospective bidders/proposers with a tool for identifying certified DBEs who may be eligible to participate, for DBE credit, on the referenced project.

The Pennsylvania Unified Certification Program (PA UCP) provides a web-based database to search for firms who are DBE certified in Pennsylvania. The website can be accessed using the following link: <https://paucp.dbesystem.com>

We reviewed the scope of services for the referenced project and determined that the following North American Industry Classification System (NAICS) Code(s) could be associated with this project:

NAICS CODE(S): 238210, 541330, 541511, 541519, 238990, 423690, 561790, 561990, 484220, 236220, 238130, 238390

These code can be used for the PA UCP website search; however, your search does not have to be limited to the named NAICS Code. This code is for informational purposes only and to assist in identifying some of the firms that may be eligible to participate on SEPTA projects as DBEs.

Since the certification status of a firm is subject to change due to annual reassessment or changes in ownership, management, and/or control, prospective bidders/proposers should contact the DBE Program Office regarding a firm's current status for a particular solicitation. *ONLY FIRMS WITH A CURRENT PA UCP CERTIFICATION ARE ELIGIBLE FOR DBE CREDIT ON PROJECTS.* **The bidder/proposer has the sole responsibility of obtaining certified firms for use on SEPTA's projects.**

If you have any questions concerning a firm's status, or if you need assistance identifying other firms, contact the DBE Program Office at (215) 580-8333 or email me at GMyers@septa.org. Thank you. Gregory Myers.
